Amendment to the Drawings

Applicant submits herewith a Request For Approval To Amend Drawings to add a second line from reference identifier "70" in Figure 2. Specifically, the Examiner notes that the "printed circuit board is the combination of the top and the bottom" and, prior to this Amendment, "Figure 2 shows printed circuit board (70) with [the] line drawn to only [the] top portion of the mounting structure." Thus, the proposed amendment also draws a second line to the bottom portion of the mounting structure.
